

Personal data security policy

1. Administrator

The administrator of your data is Grill-impex Spółka z ograniczoną odpowiedzialnością, Sp.K. with its registered office in Różanie, Sielun 4A, 06-231 Różan, registered in the National Court Registry, number 141736878.

2. The purpose of data processing

Your data will only be processed for one or several of the following purposes:

- sending messages containing commercial information
 - with prior and separate consent;
- administrator's marketing;
- answering questions from Website users.

3. The expected period during which data will be stored

Your data will be kept for the period needed to provide the services you ordered. In the event that the purpose of data storage ceases, they will be deleted, unless we are obliged to store them for longer on the basis of applicable law.

4. The rights of the data subject

Under the terms of applicable law, anyone who has given us their data may ask us to get access to them, to correct them and remove them, and may also object to the processing of their personal data free of charge. After submitting a request to delete data or objection, you will not receive the service. At any time, you can revoke your consent to send commercial information. After you cancel your consent to send commercial information, you will not receive the service. Everyone has the right to lodge a complaint with the supervisory body. In Poland, the supervisory body is the President of the Office for Personal Data Protection.

5. Recipients of data

We transfer your data only to entities providing services to us on the basis of separate agreements, to which we entrust the processing of personal data in accordance with the law.

6. Security measures

We protect your data against unauthorized access, unauthorized people, unauthorized processing and alteration, loss, damage or destruction. The IT system in which we process the data meets the requirements of the regulation of the Minister of Interior and Administration of 29 April 2004 on the personal data processing documentation and technical and organizational conditions that should be met by devices and IT systems used to process personal data (Official Journal .2004.100.1024). Personal data is processed taking into account the principle of accountability, adequacy and reliability
